

Instructions for Completing CDTFA-401-A, State, Local, and District Sales and Use Tax Return

You Can Easily File Your Return Online

Filing your return online is an easy and efficient method of filing your sales and use tax return. When you file your return online with the California Department of Tax and Fee Administration (CDTFA), the system calculates tax due based on the sales and deduction information you enter. Online filing helps reduce errors by prompting you when items are missed. By ensuring the accuracy of your return, you can avoid interest, overpayment, and penalties due to reporting incorrect information. By filing your return online, you avoid additional cost for postage or having your return lost in the mail.

Once you have completed and transmitted your return to CDTFA, the return is automatically posted to your account. You can also view previously filed online returns, file amendments, file your return early, and set a future date to make your payment, as long as the payment is made prior to the due date of the return.

To file your return online, go to www.cdtfa.ca.gov, and select *File & Make a Payment*.

Making Your Payment

There are three easy and convenient payment options available. *Note:* Never send cash payments through the mail.

ACH Debit Method

You can file and pay your return in one easy transaction. This is the preferred method for making a payment on a return.

- Enter your banking information (bank account number and bank routing number).
- Select a payment date. Payments may be held for any banking day you select up to the tax due date.

Credit Card Payment

You can pay by credit card through a third-party vendor. American Express®, Discover®, MasterCard®, and Visa® cards are accepted. A service fee of 2.30 percent of the transaction amount will be charged by the third-party vendor. This service fee is not paid to, or retained by, CDTFA.

You must return to the online filing system after making your credit card payment to complete filing your return.

Paper Check

- Choose this option to print out a payment voucher to mail in with your check.
- Print the confirmation page and payment voucher. This voucher is only available immediately after filing your return.
- Mail in your check, with the account number written on the memo line, with the payment voucher. Make your check or money order payable to the California Department of Tax and Fee Administration. Keep a copy for your records.

Payment Methods When Filing Paper Returns

- **Check or Money Order:** Make your check or money order payable to the California Department of Tax and Fee Administration, and always write your account number on the check or money order. Be sure to enclose your payment with your return.
- **Credit Card:** You can charge your tax return payment if you have an American Express®, Discover®, MasterCard®, or Visa® credit card. Other cards cannot be accepted. To make credit card payments, visit our website at www.cdtfa.ca.gov, or call 1-855-292-8931. The credit card processing vendor will charge a service fee of 2.30 percent of the amount charged. This service fee is not paid to, or retained by, CDTFA.
- If you are required by CDTFA to pay taxes by Electronic Funds Transfer (EFT), you must continue to use that method. Additional information is available on our website at www.cdtfa.ca.gov.

- Include all charges related to your sales, such as labor, service, and shipping and handling charges.
 - Used Vehicle Dealers: Also include charges related to your vehicle sales (for example, document fees, smog certification fee, mandatory warranties, among others).

 - Your total sales may include amounts for California sales or use taxes. If this is the case, be sure to deduct those tax amounts on Section A, line 9. If you do not, you will overpay tax.
-

Line 2. Purchases Subject to Use Tax

Enter your total purchases that are subject to use tax, as explained below.

Your purchases of merchandise, equipment, and other tangible personal property are subject to use tax and must be reported if you:

- Purchased the property from an out-of-state retailer who did not collect California use tax, or
- Purchased the property with a resale certificate or other exemption certificate, and used the property in California for a purpose other than:
 - Resale or
 - Demonstration, retention, or display while holding it for sale in the regular course of business.

You must also report your purchase of a vessel or aircraft if you:

- Purchased it from an unlicensed retailer who did not charge tax on the transaction and
- Used the property for a purpose other than resale as described above.

Enter the amount you paid for the property.

Note:

- If you paid another state’s sales or use tax on your purchase, do not include the tax payment as part of your purchase price. You may be eligible for a credit for the other state’s tax (see instructions for line 20c).
- If you are reporting property purchased with a resale certificate, report the purchase price on the tax return for the reporting period during which you first used the property in California.
- If you are reporting property purchased from an out-of-state retailer who did not charge you for California tax, report the purchase price on the tax return for the reporting period during which you first used the property in California.

- If you are closing out your seller's permit and have sold fixtures and equipment, you should report the sales price and identify the sale as "fixtures and equipment" on line 2 of your final sales and use tax return. You must also report any inventory you intend to retain for your own use or for use as a gift, that was purchased for resale without the payment of tax or tax reimbursement, on line 2 of your final sales and use tax return and identify it as "retained inventory." Sales of inventory to another retailer or to the purchaser of your business are not taxable but should be reported as "Sales for Resale" on line 4 of your return. A resale certificate should be obtained from the buyer and saved in your records. For more detailed information, see [publication 74](#), *Closing Out Your Account*.

Line 8. Sales in Interstate or Foreign Commerce

Enter sales that are exempt from tax as interstate or foreign commerce (sales involving shipments or deliveries from California to points outside this state).

Line 1. Bad Debt Losses on Taxable Sales

Enter bad debt losses, as described below.

If you have reported a taxable sale and have been unable to collect payment for the sale, you may take a deduction for the taxable sales portion of the bad debt.

Bad debts may take the form of:

- Checks that have been returned to you unpaid by the purchaser's bank which you have determined to be uncollectible, or
- Amounts from charge or credit sales that you have determined to be uncollectible.

The bad debts must be charged off for income tax purposes, or, if you are not required to file income tax returns, the bad debts must be charged off in accordance with generally accepted accounting principles.

Enter only the amount of the sale before tax. For example, if you sold merchandise for \$15 plus sales tax and were unable to collect any amount for the sale, you would claim \$15 as a deduction.

If you claim a bad debt deduction in a prior period and later recover a payment, you must report the payment on the tax return filed for the period in which the recovery payment was made. ([Regulation 1642](#), *Bad Debts*.)

After you have gathered this information, follow the steps below. Calculations transferred to the return should be in whole dollars. As a result, there may be minor differences due to rounding when calculating the return.
